SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Normal Operations	Normal Operations	Normal Operations	Normal Operations

Cal OES INLAND REGION

- See Fire Activity Slides.

Cal OES COASTAL REGION

- Nothing significant to report.

Cal OES SOUTHERN REGION

M5.0 Earthquake, Coso Junction, Inyo County (New/Final)

On 08/22/19 at 1349 hours, a M5.0 earthquake occurred 16 miles southeast of Coso Junction, Inyo County.

- The CSWC made contact with the Inyo County Warning Point and surrounding Operational Areas and there were no reports of damages or injuries.
- The Cal OES EQTP Duty Officer advised:
 - EQTP DO spoke with California Geological Survey (CGS) Acting State Geologist, who stated that we are still within the timeframe where moderately sized aftershocks can be expected.
 - This event occurred in the same trend area as the Ridgecrest earthquake events and aftershocks.
 - Aftershocks should continue to decrease in frequency and magnitude over time. Even though we are in the second month after the M 7.1 Ridgecrest earthquake, this would still be considered to be an active time for aftershocks from such a large event.
 - The M5.0 has been followed by many smaller events including a M3.5, M3.3, and M3.0 with an additional 25-30 events below M3.0.
 - Cal OES EQTP DO will continue to monitor and advise as needed.

FIRE ACTIVITY

Cal OES Fire Preparedness Levels

National	Northern California	Southern California
Preparedness Level 2	Preparedness Level 2	Preparedness Level 2
	Multi-Agency Coordination System MACS Mode: 2	Multi-Agency Coordination System MACS Mode: 2

Please note: The National and Regional Preparedness Levels are maintained by the National Multi-Agency Coordination (MAC) Group and are separate from Cal OES activation levels.

Cal OES Fire Missions

2019-FIRE-402: Incident Number: CA-CDF-000127. Request for five 20-person Hand Crews each and all necessary personnel, support, transportation and materials. 65 additional soldiers to be trained and ready to backfill. Assigned to fuel reduction efforts in SHU, NEU, BEU, and FKU (1 Crew in each unit with the exception of 2 crews in FKU).

CAL OES INLAND REGION

Mountain, Vegetation Fire, Shasta County

Location: Bear Mountain Rd. x Dry Creek Rd., 5 miles north of Bella Vista

Jurisdiction: State DPA, SRA, Shasta-Trinity Unit

Per Cal OES Duty Officers and ICS-209 as of 08/23/19 at 0724 hours:

- 600 acres, 40% contained
- Expected Containment: 08/26/19
- 250 single residences threatened
- 3 single residences, 4 outbuildings destroyed
- 1 structure damaged
- Evacuation orders remain in place

Activations

- Shasta County EOC is activated at Level 3 (lowest). Operational period TBD.

FIRE ACTIVITY

Mountain, Vegetation Fire, Shasta County (Continued)

Deployments

- 1 Cal OES Law Enforcement Branch Assistant Chief (AC)
- 2 Cal OES Fire and Rescue Division ACs (demobilizing 08/23/19, 1100 hours)
- 1 Cal OES Inland Region Emergency Services Coordinator deployed to the Incident Command Post (ICP)

FMAG

- On 08/22/19, CAL FIRE Shasta Unit submitted a Fire Management Assistance Grant (FMAG) request to the California State Warning Center. The Cal OES Fire and Rescue Division has placed the FMAG on hold.

Evacuations

- Cal OES Law Enforcement Branch advised as of 08/23/19 at 0700 hours, mandatory evacuation orders are still in place for 75 residences.

Road Closures

- There are currently no major route closures.

Shelter/Evacuation Center

- Crosspointe Church, 2960 Hartnell Ave., Redding
 - Midnight Count: 11

Critical Infrastructure

- As of 08/23/19, PG&E electric distribution personnel and three Safety Infrastructure Protection Teams remain in the area to coordinate with CAL FIRE and begin the damage assessment and restoration process. Through isolating the distribution circuits involved the outage has been reduced to approximately 720 customers in the immediate fire area. At this time there is no estimated time of restoration.

Health and Medical

- California Department of Public Health, Intermediate Care Facility Evacuations:
 - Six patients from the Osterman 1 facility were transferred to the Osterman 2 facility located at 2561 Capella Rd., Redding
 - Transfers are occurring due to concerns over road closures in the area.
 - No mandatory evacuation orders have been issued for these facilities.

- None reported.

WEATHER OF CONCERN

NORTHERN CALIFORNIA

- A gradual warming trend is expected over the weekend and early next week for Northwest California.
 - Afternoon high temperatures will reach into the 90s Friday through Sunday, and between 100 and 105 degrees Monday through Wednesday.
 - Even coastal areas are likely climb above normal by early next week.
 - Little to no precipitation is expected, although low chances for dry thunderstorms are being monitored for the middle of next week.
- Locally gusty wind possible afternoons into evenings through the Delta and over higher terrain.

SOUTHERN CALIFORNIA

- Elevated to brief critical fire weather conditions across all interior sections through early next week due to warm and dry conditions combined with locally gusty winds.
 - Typically gusty onshore winds can be expected during the afternoon and evening hours today.
 - The combination of gusty winds and low relative humidity will continue to produce elevated, to briefly critical, fire weather conditions across interior sections.

WEATHER KEY POINTS

08/23/19 - 08/29/19

Friday-Tuesday

- Temperatures remain warm across the state. Low to moderate heat impacts are possible across the Southern and Inland Regions
- Elevated fire weather conditions are possible for inland portions of Southern Region through Tuesday, due to dry conditions with locally gusty winds
- Dry conditions continue across the state
- A warming trend is expected for the beginning of next week, with moderate to high heat impacts possible in some locations, especially across the Central Valley

Wednesday-Thursday

- Dry weather is likely across the state, though isolated showers may be possible in southern California or over the southern Sierras by mid-week.

CALIFORNIA WEATHER IMPACTS

EXPERIMENTAL HEAT RISK FORECAST

Monday, August 26

Tuesday, August 27

Category	Level	Meaning
Green	0	No Elevated Risk
Yellow	1	Low Risk for those extremely sensitive to heat, especially those without effective cooling and/or adequate hydration
Orange	2	Moderate Risk for those who are sensitive to heat, especially those without effective cooling and/or adequate hydration

Category	Level	Meaning
Red	3	High Risk for much of the population, especially those who are heat sensitive and those without effective cooling and/or adequate hydration
Magenta	4	Very High Risk for entire population due to long duration heat, with little to no relief overnight

WEATHER OUTLOOK

08/28/19 - 09/05/19

6-10 Day Outlook (08/28/19 – 09/01/19)

Temperatures

- Above normal temperatures highly favored across the state, especially across the north.

Precipitation

- Equal chances of below or above normal precipitation for the Coastal and Inland Regions. Above normal precipitation favored for Southern Region.

8-14 Day Outlook (08/30/19 – 09/05/19)

Temperatures

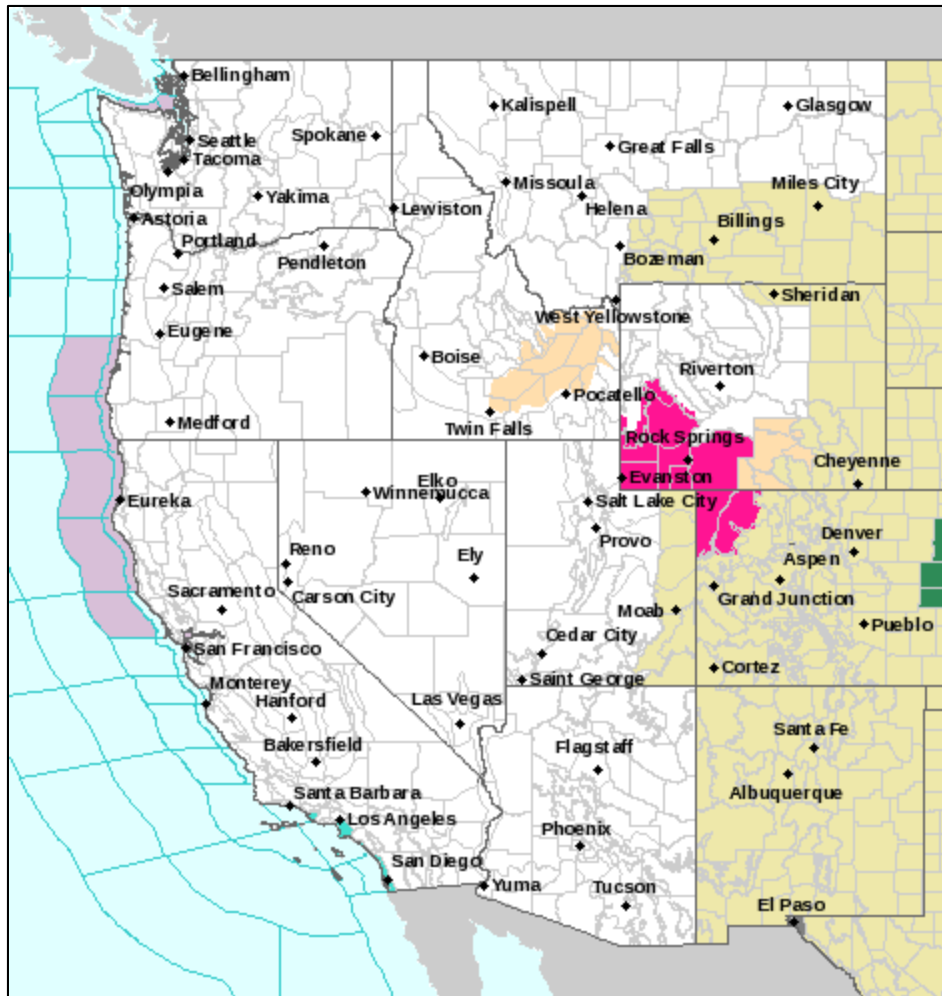

- Above normal temperatures highly favored across the state, especially across the north.

Precipitation

- Equal chances of below or above normal precipitation for the Coastal and Inland Regions. Above normal precipitation favored for Southern Region.

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Cal OES LAW ENFORCEMENT MISSIONS

Cal OES Law Missions

- **2019-LAW-4769, 008/22/19, 1457 hours:** IERCC notified CSWC of an In-Reach Device two-way messaging device activation at coordinates 36.560612 -118.285825, which resolved to Mt. Whitney in Inyo County. R/P advised that his 64 year-old wife had injured her knee while hiking and was unable to walk. Inyo Sheriff SAR notified and coordinating response with CHP Inland Air Ops. **Update, 2000 hours:** Inyo Sheriff advised that R/P and injured spouse were sheltering in place overnight for an a.m. extraction. CHP H-80 would depart between 0600-0630 on 08/23/19 and pick up two Inyo SAR volunteers to conduct extraction, either by toe-in, hot load, hoist, or hike in from trail camp. **MISSION ONGOING**
- **2019-LAW-4721, 08/21/19, 1202 hours:** Jackson County Sheriff's Office (Oregon), requesting a boat team with ROV and side scan capabilities to assist in the recovery of a male drowning victim that has been located submerged in Lost Creek Lake, (GPS coordinates 42.6817 -122.6481). JCSO advising their current team has damaged their ROV and the depth of the victim is not safe to use underwater recovery divers. JCSO advising they have been unsuccessful trying to locate another ROV within the State of Oregon. JCSO is requesting the California SAR Mutual Aid boat team to meet at his office, 620 Antelope Rd., White City, Oregon, 08/22/19, for a 0700 hours briefing. JCSO advising they would provide lodging, meals, and other logistical support. Cal OES LEB coordinated the response. **Update, 08/21/19, 1751 hours:** Butte County Sheriff's Office (BCSO) accepted the mission advising their boat team headed up the night of 08/21/19 to assist in mission planning with JCSO. **MISSION ONGOING**
